EXPERIENCE

Webpoint Solutions, LLC, Atlanta, USA

Lead Software Engineer/DevOps (Jul 2021 - PRESENT)

- Scaled and operated geo-distributed Kubernetes clusters supporting **5M+ monthly active users**, improving availability and performance.
- Mentored interns and junior engineers, establishing DevOps best practices and documentation standards.
- Built monitoring and alerting workflows that reduced incident discovery time and improved response for the engineering team.
- Design and implement robust software architectures

Leapfrog Technology Inc, Seattle, USA

Software Engineer/DevOps (Jun 2019 - Jul 2021)

- Develop full-stack applications with a variety of technologies, platforms, and frameworks such as React, Node, Microsoft power platform, AWS, Azure App services
- Work with clients to analyze requirements and produce system feasibility, system specification, and architecture diagrams

Yarsha Studio, Kathmandu, Nepal

React developer (Dec 2017 - May 2019)

- Develop responsive applications for web and mobile using JavaScript and its frameworks
- Write reusable and testable components for maintainable and clean code

CERTIFICATIONS AND NOTEWORTHY PROJECTS

[AWS Certified Cloud Practitioner](#)

[Microsoft Certified: Azure Developer Associate](#)

[Signetic MVS](#)

[EGW Writings](#)

MAJOR SKILLS

TS/JS/Golang
Containerization
Orchestration
Terraform/CDKs
CICD(Argo/Github Action...)
Cloud Providers / Services

FAMILIAR WITH

Travis CI/CircleCI/Azure DevOps,
On-Prem/Cloud deployment
Bash
RESTApi/GraphQL/GRPC
Postgres/MongoDB/MYSQL

EXPLORING

USE/RED Method
eBPF/Cilium

EDUCATION

St. xavier's college, Nepal
Bachelor of Information Management (2015 - 2019)
